The Sun, Moon and Earth

The Sun, Moon and Earth are all Spherical in shape.

The Moon orbits around the Earth.

This takes 28 days.

The Earth orbits around the Sun.

This takes 365 $\frac{1}{4}$ days.

Orbiting the Sun

There are 8 planets that orbit our sun.

Mercury
Venus
Earth
Mars
Jupiter
Saturn
Uranus
Neptune

Orbit means a looping path around an object

The planets orbit the sun in an oval shape.
