Beat the Street

Beat the Street has arrived (it started on Wednesday 16th June hopefully you've not had your head under a rock!) and so far 59,300 players have signed up to play covering 366,313 miles (at the time of writing).

Each week will have a theme:

Week 1-Go Play, Week 2-Go Travel, Week 3-Go Wild, Week 4-Go Active, Week 5-Go Explore and Week 6- Go Celebrate.

We have already seen lots of [activities](#) and [events](#) over the past four weeks and [awards](#) have now been added to Beat the Street.

There are 135 primary schools taking part in Sheffield with Hunter's Bar Juniors (and Infants) sitting in Locality F on the full leader board. There are 18 leader boards altogether with some great prizes up for grabs over the course of six weeks for the winners:

1st Place - £125 book or sport vouchers & a trophy

2nd Place - £100 book or sport vouchers & a certificate

3rd Place - £75 book or sport vouchers & a certificate

but also the chance to win individual prizes.

Any registered player can win a Lucky Box prize when playing the game. Each week, 4 Lucky Box winners will be drawn who will receive a £20 Waterstones voucher. All you have to do to be in with a chance of winning is register online and get swiping each week.

Beat the Street will finish on Wednesday 28th July so get out there and get swiping those "Beat Boxes" in these last two weeks!

Pos		Trees	Acorns	Total

[Planet Super League - Play for your club and for the planet](#)

Welcome to a football tournament like no other. This time, it's up to the fans to win it for the club by completing planet-saving activities with a football twist. There are 24 clubs, big rivalries, 11 weeks of fixtures and hundreds of family teams across the UK taking part. There are over 60 fun planet-saving activities yet just one Planet Super League trophy. With each activity you can score 1, 2 or 3 goals. Matches start on a Monday and finish the following Sunday. This means you can score goals throughout the week and really go for it over the weekend.

You're shown your impact with Planet Coins - each activity completed that has a direct impact on reducing your carbon footprint earns a Tree Coin. Each learning activity completed earns an Acorn Coin. The whistle has blown! Sign-up at any time and start playing on the [activities page](#).

Sports Day

We provided a Sports Day over 6 days for the students, to replace our traditional Sports Day (again due to the pandemic). Training videos were provided and 7 Challenges were chosen linked to our physical literacy curriculum. Sapphires stormed into an early lead but as staff started to enter the scores day by day it all started to tighten up. Going into the final day the scores were still really close but in the end it was decided by 23 points, with Emeralds just edging out Diamonds. Click on the bar-chart below to be taken to the final scores.

UEFA EURO 2020 ESFA Classroom Challenge

We were absolutely wowed by some of the entries that came in for the Panini and ESFA design a ball competition.

Entries were sent off for HBJ & HBI during May.

A huge well done to all children who got involved!

#ThisIsPE

#ThisIsPE was created by Yorkshire Sport Foundation, (in partnership with the Association for Physical Education, Youth Sport Trust and North Yorkshire Sport) and endorsed by the Government [Department for Education](#). It is designed to support parents and teachers to educate and entertain primary school children at home during the school closures. There are a lot of high-profile exercise videos available, but far less genuine physical education!

Yorkshire Sport Foundation have brought together teachers from across the country (current PE teachers and PE teachers now working elsewhere in the sector) to provide activities and games you can replicate at home, using things you can find around the house. They have fun at the heart of them all, so not only will it keep children entertained, but it will continue their development in crucial areas such as coordination, balance and building strength.

Each #ThisIsPE activity is designed to be fun, replicable at home, and can be done with things you can find around the house. Each video lasts around two minutes, and will introduce an activity, with tips for how to progress it depending on the age and development of your child. Some of the videos have ways you can put what children have learnt into a game, plus ways of how to make that game easier or harder.

You may think that PE is all about star jumps, cross country runs in the cold, or the school football team. Physical education is actually about providing your child with the fundamental skills they need as they develop throughout primary school. And it's fun! Families across the country have been getting involved in #ThisIsPE in the last few weeks, so why don't you? [Check out all the videos here](#), or take a look on [Facebook](#) or [Twitter](#) for #ThisIsPE

Update on the National Child Measuring Programme

The 0-19 years school nurse team have now been able to start this years National Child Measuring Programme (NCMP) screening. They are aiming to see children from a representative sample of schools across the city. Unfortunately, they will not be able to visit all schools before the end of this academic year so if any parents have concerns about their child's height or weight, they would be happy for you to contact them on 0114 305 3284. They can also arrange to see children in a local community clinic if they are not able to do so in school (all staff visiting schools will follow appropriate Covid 19 guidelines).
